

Feedback Received from the Community in Response to the December Newsletter Item about the Proposal to Site the Library at the Domain

In Favour:

I think the library idea is brilliant and its position would be spot on.

Fantastic idea! As you rightly point out, the changing shed facility is highly under-used and this would be a great addition to the area!

Great idea for the new library building at the tennis courts.

Our property borders onto the sports field and I think the Library idea is great. I have never seen anyone use the changing shed in all of the years we have owned a property across the field from the Toilet block.

The new library at the domain is a great idea. Hopefully when we get to spend more time in Kuaotunu I can volunteer to work in there.

Congratulations on the progress with plans for the library. It gives me great pleasure to know that it is safe in your hands.

I think it's great to have the library at the domain where there are already many things where both children and adults can enjoy themselves. Naturally, our craft ladies, on the Monday afternoon, will miss their little library but I also understand that it was not available enough for people to get books.

Not In Favour:

Dear Alister as the Secretary of KRRRA I am hoping that more light can be thrown on the speed of the new proposed hack of the Domain facilities of the Library be sought. Having been a Founding member of the Library Committee who resigned in November following a successful Fundraising Event for the cause but with lack of confidence in the working of the Committee of five, the story written in KRRRA's latest new letter must be privy to correspondence written to KRRRA to report upon? .I would very much request this be made available at the next KRRRA meeting and also made available for the Community to read if they wish for it .The speed of the procedure and proposition citing TCDC's Hack are curious considering the lack of discussion at Library Committee level and without a survey being carried out in the Community who may like to have Library continue to live in its closet in the Hall and be more involved questioning a behind stairs stitch up that may have been seen to take place? We witnessed this cloak and dagger behaviour with the Reserve tree cuttingLets not see this kind of behaviour repeated ?
