Dear Maxine,

We are pleased to see progress in the project to relocate the Kuaotunu Library to the changing rooms at the Sports Grounds.

The proposal was first discussed at a Committee Meeting of the Domain Board in November 2017 following a request by members of the community to help find a new home for the library. Domain Board funds are available for the improvements and/or additions of facilities on land administered by the Domain Board. The committee agreed that the building at the Sports Grounds should be made available to house the library and passed a motion to allocate \$30,000 to upgrade the building and transform the changing rooms into a new home for the library.

Dugald Hoyland of the committee kindly offered to draw plans which are now ready to be lodged with Council and we thank Dugald for his work.

We hope that you will obtain the necessary consents so that the historic Kuaotunu Library can continue to serve the community.
